## DETAILED ACTION

### *Response to Amendment*

1. The amendment filed on 04/14/2005 under 37 CFR 1.131 and Declaration of Spencer Lambert is sufficient to overcome the Rosa et al. (Pub. No.2003/0091960) with (patent No. 6,575,753) reference.

Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

### *Allowable Subject Matter*

Claims 1-22 are allowed over prior art of record.

2. The following is an examiner's statement of reasons for the indication of allowable subject matter:

The prior art record, Pope (Patent No. 5,963,624) teaches a remote target control system comprising: a telephone, an interface disposed in communication with the telephone (Title, C2, L45-60, Fig.1, No.10 Illustrate telephone which can be use as remote control).

Matsui et al. (Patent No. 6,322,444) and a computer disposed in communication with the interface (C3, L22-50).

However, the combined of Pope and Matsui **fail to teach** and at least one shooting target for selectively actuating a shooting target in response to signals received from the telephone, as substantially connect and specific detail and combination as in claims 6, 11 and 17.

Claims 2-5, 7-10, 12-16 and 18-22 are allowed as being dependent on the independent claims 1, 6, 11 and 17.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
